ABOUT

Final-year Computer Engineering student focused on Artificial Intelligence and Data Science. My academic background and project experience have strengthened my interest in applied machine learning, natural language processing, and statistical modeling. I aspire to pursue research and real-world applications that leverage AI to enhance decision-making and human-computer interaction.

PROFESSIONAL EXPERIENCE

Work and Travel | USA | May 2025 - Sep 2025 (4 Months)

- Operated amusement park rides while ensuring strict adherence to safety protocols and operational procedures.
- Monitored ride performance and responded promptly to operational or safety issues to ensure continuous, safe, and enjoyable guest experiences.
- Enhanced teamwork and problem-solving abilities by collaborating with team members to handle large crowds and maintain smooth ride operations during peak hours.
- Strengthened English fluency, cross-cultural communication, and interpersonal skills through daily interactions with guests and coworkers from diverse cultural backgrounds.

Java Programming Instructor | Bucharest, Romania | Summer 2024

- Designed and delivered Java programming sessions progressing from basics to more complex topics.
- Provided hands-on training through coding exercises and interactive sessions.
- Mentored students to successfully complete individual and group programming projects.

EDUCATION

Akdeniz University | 2021-2026

Bachelor of Computer Engineering

- Current Status: fourth-year student
- Language of instruction: English

PROJECTS

KonumLA
- MVVM, Firebase, CoreData, CoreLocation, MapKit, SPM

CryptoBloom
- MVVM, RxSwift, Binding, API

InstagramClone
- MVVM, RxSwift, Binding, API

LANGUAGES

- Turkish – Native
- English – Advanced

CERTIFICATES

Techcareer.net Bootcamp Fest'5: Veri Bilimi 101 Bootcamp

Software Development Bootcamp - USA Based

Data Structures and Algorithms
  github.com/erayinal/DataStructures

Siber Vatan: Cyber Security

RELEVANT SKILLS SUMMARY

- Java (Upper-Intermediate)
- Python (Upper-Intermediate)
- Swift (Intermediate)
- Machine Learning
- Natural Language Processing(NLP)
- Database Management(SQL)
- Cloud Computing: Azure
- Analytical thinking
- Time Management
- Teamwork
